

CODELOCK 200 MECHANICAL

- PVD, low maintenance, weather resistant finish
- Available in 5 functions
- Easy to fit
- Hexagonal bevelled handle and lock case
- Tumbler alignment for easy code change
- Key bypass option may be specified on any function

Codelock CL200 Range

This premium range of light duty locks offers 5 functions in 2 PVD finishes, all of which are available with key override as an option. Multiple locks can be supplied keyed alike.

Codelock CL200 is suitable for a wide range of light duty entry control applications, in offices, warehouses, laboratories and around the home.

All products feature a bevelled hexagonal handle, tumbler alignment for easy code changing, and durable PVD (Physical Vapour Deposition) finishes.

As with all Codelocks, installation and code changing are simple, thanks to the easy to follow, clear instructions supplied.

CL255 Mortice Latch - Hold Open

Functionally the same as the CL250 with the addition of a slide button which can be used to hold open the latchbolt for free entry without operating the code (when the lock is not required to be operational).

Available in two PVD finishes
Stainless Steel, Polished Brass
