Lock down mode™

Hidden locks **engage**
when attacked

25% **denser** than iron

The hidden locks that secure your home when attacked
are housed deep in the molybdenum core.

This is 25% denser than iron and gives extreme protection
from screwdrivers, hammers and drills.

Designed for Ultion

Very few things go with us everywhere, our keys do.
Keycap makes your keys look great and feel much more comfortable whether in your pocket or your hand.

Still works
after an attack

Lock down mode stops the intruder from opening your door.

After the failed attempt your door can still be opened
and locked from inside.

If an intruder snaps Ultion
and breaks into your home
we'll pay you £1000.

8 Drill defences

Drilling an Ultion lock is not something that happens quickly or quietly. Before the drill reaches the **molybdenum core** (that's 25% denser than iron), there are 8 hardened steel drill defences.

Bump safe

Ultion's internal pins are engineered to protect you from an intruder bumping your door lock.

It may not be a common method of forced lock entry, but Ultion still has your back!

Every body approves

Approved by locksmiths

Few locks survive the test designed with the Master Locksmith Association and carried out by locksmiths.

Approved by the Police

The official UK Police flagship initiative combining the principles of 'designing out crime' with physical security.

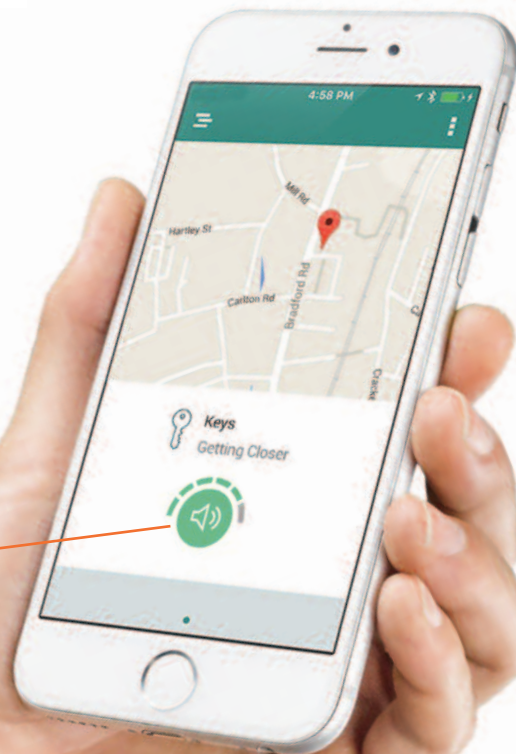

Approved by British Standards
