At last a steel padlock that does not rust Steel is stronger than brass - But until now steel has rusted

ABUS ETERNA Laminated Steel Padlocks

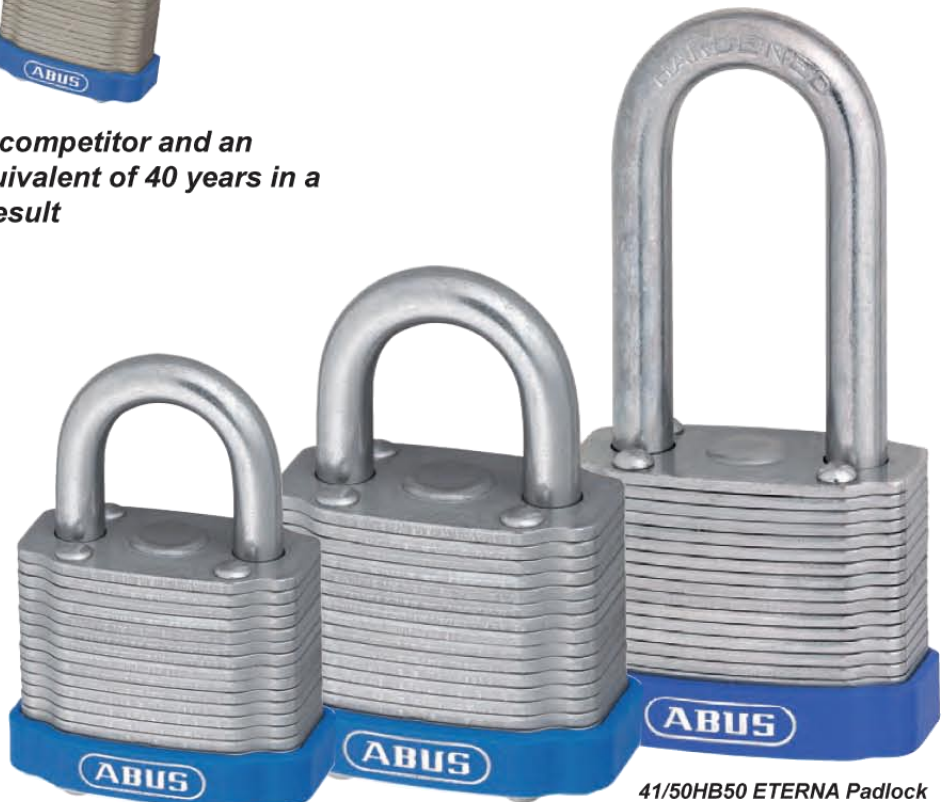

- Each laminated steel plate is individually coated in the new ETERNA treatment process
- ETERNA treatment offers 13 times more corrosion protection than normal zinc plating
- Salt bath tests give the equivalent of 40 years of weather protection
- 180 hours in a salt water bath will kill most padlocks, but not the new 41 ETERNA - it worked perfectly

Two laminated steel padlocks, a competitor and an ABUS ETERNA, tested to the equivalent of 40 years in a harsh environment - this is the result

ETERNA Counter Display
