

FUNCTIONS

Stay in Control

Install the K3 App on a compatible smartphone. Controlling locks has never been so convenient. Manage all aspects of your lock from your smartphone. From basic settings to multiple individual access period for each client.

CL5500

Controlled Code Free

Allow access at set times of day by setting the lock into code free mode. Removes the hassle of key unlocking doors for free access periods. Reduce the administration burden of manually putting locks into code free mode. Create up to 10 difference code free periods that automatically enable only when scheduled. Code Free is used in many different situations – office hours only, cleaning staff, school environment (set code free for break times).

Code Card Phone

Multiple access. The CL5500 range of locks provides flexibility and convenience by providing a range of access methods allowing you to choose the most suitable entry method for your application. Allow clients access via a simple code, allocate and register a MIRFARE® compatible card or send an invitation to their phone.

Audit Trail

Keep track on when and where the lock was accessed. Download and view the full lock audit trail data.

NetCode

Control Entry. Set codes for a specific start date and time and that automatically expire after a set duration. Send these set codes via email or SMS. *Note additional costs apply.
