HomeGUARD & HomeGUARD+Plus

ANTI ARSON & HOME SECURITY PRODUCTS

HomeGUARD

HomeGUARD is an ideal product for protection against anti-social behaviour such as fireworks and other ignition sources being introduced through the letterbox. It increases the security of premises and helps to reduce the fear of crime.

- **Anti-Social Behaviour**

Contains fireworks and small fires

- **Increase Security**

Mail is kept out of sight, not on the floor where it is a clear indication to burglars that no one is in.

- **Lockable Letter Plate**

The letterbox can be securely locked closed when required. In addition the mailbag can be secured with a padlock to prevent any unauthorised access to your post helping prevent identity fraud or the theft of money or cheques in the mail.

- **Huge Capacity Fireproof Bag**

Accepts bulky items such as newspapers, magazines and even telephone directories.

- **Easy to Install**

Easily fitted in minutes to almost any door, including uPVC using simple tools. Homeguard can also be removed and re-used just as simply.

- **HomeGUARD -**
*Making people
safer in their homes*

HomeGUARD + Plus

Where there is an extreme threat to life **HomeGUARD+plus** incorporates a Heat Detection Tube which is instantly activated by heat from any ignition source, releasing extinguishant, quickly and effectively putting out any fire.

- **Anti-Arson**

Where there is an extreme threat to life

- **Increase Security**

Mail is kept out of sight, not on the floor where it is a clear indication to burglars that no one is in.

- **Lockable Letter Plate**

The letterbox can be securely locked closed when required. In addition the mailbag can be secured with a padlock to prevent any unauthorised access to your post helping prevent identity fraud or the theft of money or cheques in the mail.

- **Huge Capacity Fireproof Bag**

Accepts bulky items such as newspapers, magazines and even telephone directories.

- **Easy to Install**

Easily fitted in minutes to almost any door, including uPVC using simple tools. Mailguard can also be removed and re-used just as simply.
