

# Mortice Locks

## 5 Detainer Clutch Mortice Lock

## 3M51

### Application:

- For timber sliding doors requiring an automatic closing action
- Keys are suitable for use on doors up to 50mm thick
- Detainer style locks provide a higher number of key combinations than lever locks

### Operation:

- Hookbolt is locked or unlocked by key from either side
- A projecting stump on the forend engages into the locking plate to prevent the door being lifted from the frame in the locked position
- Handles can be fitted to one or both sides of the door
