

MULTI-FUNCTION LOCKS AND PATIO DOOR LOCKS

The **ERA Multi-Purpose Bolt** can be fitted to aluminium and wooden sliding and hinged doors. The long bolt throw also makes it ideal for patio and garage doors. The rotating steel bolt resists hacksawing and the fixing screws are concealed when in the locked position.

Each bolt is supplied with steel receiving plates and a ferrule for easy fitting to all types of jamb.

Cut keyed versions of these products can be supplied with keys to pass.
